

ENVIRONMENTAL LEADERSHIP NEWS

Hello,

We would like to introduce ourselves to you as we are the Environmental leaders for 2021. Our names are Alissa, Ava, Vanessa, Gurneet, Chan and Jacob and we would like to inform you of the achievements we have made so far this year and how you can help us. Our Job is to work with teachers and other students to make our school a clean, sustainable and healthy environment. As a group we have come up with some goals that we would like to achieve this year and we look forward to sharing our progress.

You may be aware that we recently won a \$500 grant from Catholic Education, South Australia! As a group we got together to brain storm ideas and we decided to put forward a plan to remodel our school butterfly garden using a wicking bed garden system. Shortly a student rep from each class will be working with us on this project. Our first step is a meeting with a community group called Bringing Back the Butterflies who are going to work with us to learn about different butterfly species and suitable plants for our school and then the building process will begin.

Wonder bread/bag Recycling Rewards Program.

We have visited each classroom and spoken with all students about this rewards program. The collection period has been extended to the end of Week 1, Term 3! So please over the holidays collect as many bags and tags that you can. Ask your grandparents, aunties and uncles, friends, ANYONE to help you collect as many as possible. Bring them after the holidays and put them into your class collection bin. Each class teacher will be selecting one recycling champion to receive an award at our first assembly in Term 3. Remember the bread bags don't need to be the brand wonder, they can be anything!

HAPPY HOLIDAYS from the Environmental Leaders!
